

February 28, 2022

Dear Cystinosis Community:

Leadiant Biosciences, Inc. is pleased to announce that CYSTARAN[®] (cysteamine ophthalmic solution) 0.44% eye drops will be back in stock, April 2022, at AllianceRx Walgreens Prime.

With the reintroduction of CYSTARAN, we are pleased to announce the **CYSTARAN Voucher Program**. Through this program, cystinosis patients in the U.S. may be eligible for a **FREE 1-month supply of CYSTARAN (4 bottles)***. Information about the program is enclosed and also available on our website at www.cystaran.com.

To enroll in the CYSTARAN Voucher Program or order CYSTARAN, please call AllianceRx Walgreens Prime at 1-877-534-9627 or see enclosed information.

In October 2020, we notified the FDA, healthcare professionals, patients, and advocacy groups that CYSTARAN was in shortage. This notification is to let you know the shortage has been resolved. Leadiant transitioned the production of CYSTARAN to a new manufacturer. We selected our new manufacturer because of its proven track record and expertise in manufacturing using state of the art technology.

We are confident that this change will reduce the risk of recalls and shortages with the newly manufactured supply of CYSTARAN moving forward.

We have been committed to the cystinosis community for more than 20 years and know how much trust you put in us. We thank you for your patience and understanding.

If you have any questions about CYSTARAN, please do not hesitate to reach out to me for more information or visit www.cystaran.com.

Thank you,

Lesli King
