RESEARCH NETWORK

SCIENTIFIC SYMPOSIUM

Advancing the Future of Cystinosis Care

Friday, November 13, 2026 | Ann Arbor, MI

Weber's Hotel, 3050 Jackson Ave, Ann Arbor, MI 48103

Space is limited for this one-day gathering of physicians, clinicians, researchers, and scientists advancing care for cystinosis and other lysosomal storage disorders. Led by colleagues working directly in the field, sessions will move beyond broad overviews to examine emerging research, therapeutic development, clinical challenges, and questions shaping the future of care.

Hear from leaders in the field and engage with colleagues driving progress.
Attendance is in person only. Register today!

Sessions including:

- Newborn Screening for Cystinosis
- DFT383 CYStem Trial Updates
- Exploring sustained cysteamine delivery via contact lenses
- Transition of Care
- Lessons from other lysosomal storage diseases
- Swallowing Dysfunction and Myopathy in Cystinosis
- Emerging Therapies
- Challenges and opportunities in rare disease research
